

TACTICAL BREACHING

SAN Ltd is a world leader of electro-hydraulic tactical breaching gear, offering a lightweight, portable, and multi-functional solution that can be operated by one individual and break into any structure at top speed.

As our solution was created FOR Breachers BY Breachers, we know from our broad operational experience that SAN's tactical breaching gear offers a major upgrade for the Police & HLS units, Firefighters & Rescue & First Responders teams, Military & Special Forces.

We further support our valued tactical operator's community through breaching courses and training aids to optimize their capabilities and achieve our central mission:

Save Lives - Enforce Security

POWER UNIT & TOOLS

DOOR BREAKER

TYPE	HYBRID	ALUMINUM
WEIGHT	11.02 LB	9.04 LB
STROKE	10.24 IN	10.24 IN
LIFTING FORCE	6.4 TON	6.4 TON

CUTTER

WEIGHT	9.92 LB
CUTTING CAPACITY - TREATED STEEL	0.63 IN
CUTTING CAPACITY - UNTREATED STEEL	0.71 IN
CUTTING FORCE	22.4 TON

MINI DOOR BREAKER

WEIGHT	7.32 LB	6.44 LB	5.56 LB
STROKE	9.13 IN	6.97 IN	5 IN
LIFTING FORCE	3.3 TON		

NORDIC DOOR BREAKER

WEIGHT	13.23 LB
STROKE	10.24 IN
LIFTING FORCE	6.4 TON

Our signature electro-hydraulic power unit combines innovative technology based on lightweight materials, which enables the tactical operator a **fast response, mobility, and versatility**.

Capable of generating over 500 bars of hydraulic pressure, SAN's power unit quickly connects to a variety of attachable hydraulic tools which can break through any element in the urban environment, allowing tactical operators the ability to adapt to the unique conditions of their missions while performing their tasks efficiently.

BREACHER'S CARRIERS

For an optimal use of our breaching systems, SAN Ltd invests a lot of efforts and resources in designing breacher's carriers to perfectly fit each end user according to their operational requirements.

TRAINING COURSES

Our Ex-Special Forces instructors are well known for their broad operational experience which enables them to adapt to any terrain and breach any structure. SAN develops training courses which help our tactical operators' community to be ready upon any call.

Basic

- ▣ Operation
- ▣ Safety
- ▣ Maintenance

Advanced

- ▣ Technical Comprehension
- ▣ Real-time Analysis
- ▣ Squad Breaching

GUILLOTINE CUTTER

WEIGHT	13.01 LB
CUTTING CAPACITY	1.02*1.38 IN
CUTTING FORCE	15.8 TON

CABLE CUTTER

WEIGHT	7.05 LB
CUTTING CAPACITY	0.75 IN
CUTTING FORCE	4 TON

SPREADER

WEIGHT	9.26 LB
CYLINDER PRESSURE CAPACITY	6.4 TON
ARMS OPENED	3.23 IN

LONG SPREADER

WEIGHT	12.57 LB
CYLINDER PRESSURE CAPACITY	6.4 TON
ARMS OPENED	5.04 IN

TRAINING AIDS

SAN develops reusable training facilities for our tactical operators in order for them to utilize the capabilities of our breaching gear and train for any potential scenario.
